Educational highlights: Doing original research on a religious group in the Charleston area, developing an original approach to religion and film in my bachelor's essay.

Research focus or project: Religion and film, especially the work of Japanese anime director Hayao Miyazaki and how he makes use of religious themes.

Future plans: Teaching English in South Korea or elsewhere in East Asia in the coming year, hopefully moving on to grad school in the next few years to eventually teach in the field or write on religion in some capacity.
